

# 10 GREAT TRENDS

*you'll love this summer*

YOU DON'T HAVE TO REDECORATE COMPLETELY TO ADD A TOUCH OF THIS YEAR'S INTERIOR TRENDS BUT WE THINK YOU MIGHT WANT TO

## What a feeling

Sink into sumptuous velvets, relax on slubby linens or recline on the softest silks... anything that feels delicious and makes you want to binge-watch the latest Netflix box set and not move for a month. Spoil yourself rotten on this beautiful Olivia empress sofa in Isla Fox velvet, £3,160, while lounging on your combination of Grace Geometric scatter cushion in Burnt Sienna, £70, Isabelle scatter cushion in Saffron, £125, or Grace scatter cushion in Oria Apricot, £88, with your feet snugly tucked up under the Eliand stripe bed throw, £230.

Having spent so much time in our homes last year, our awareness about how our spaces make us feel has become even more developed. All these summer trends link back to how our surroundings affect us whether it's a need to be more at one with nature, a desire to add a cosy feeling or a return to heritage roots. Whatever your vibe, we know there's something here you're going to love.

### Bold and beautiful

The bolder the colour, the happier it makes us feel and a strong colour in the bedroom is just what we all need to lift our spirits every single morning, such as this Kerala Turmeric shade, from £39 for 2.5lt of emulsion by Andrew Martin. What's more this paint is scrubbable. Trust us we've tested it and it's fabulous!

### Nature's best

When Dulux Hunched its heritage range of chalky-coloured paints we knew we were going to love them. The texture is beautiful but the stone colours are just a dream – the perfect way to a calm and relaxing room. [dulux.co.uk](http://dulux.co.uk)

**COTTAGECORE**

## ONE DAY MY PRINTS WILL COME

WHEN IT COMES TO PULLING TOGETHER A FEW TRENDS ALL AT ONCE NOTHING BEATS A PRINT. WHETHER IT'S A WALLPAPER, SOME STUNNING FABRIC, AN UNUSUAL LAMPshade OR A SUMPTUOUS RUG, YOU CAN LITERALLY ADD ONE PIECE OR REALLY GO TO TOWN. WE'D OPT FOR THE BIG IMPACT OF A STUNNING WALLPAPER EVERY TIME AND WE'RE ABSOLUTELY IN LOVE WITH THIS ALBAIGIN WALLPAPER IN COBALT BLUE, £26 PER METRE, WHICH IS HAND PRINTED ON LINEN AND DESIGNED BY RAPTURE & WRIGHT FOR THE FABRIC COLLECTIVE.

## Pastel palette

Think grown up ice-cream colours and you're half way there. Pastels are cool, calming shades whatever the season and, as working from home is likely to remain a regular thing, we think this serene, delicate blue will focus the mind and add a stylish touch to any home office. The fact that this paint is called Breath of Fresh Air tells you all you need to know. Walls are in Breath of Fresh Air and the desk in Beacon Hill Damask HC-2, both from £24 for 0.94L.

## Fine print

Big and bold or small and subtle — prints are here to stay and we can't get enough of them. Gone are the days of only daring to paper a single feature wall. We're all feeling brave enough now to go to town and decorate all four of them. Bloomsbury Stripes wallpaper in Denim Blue, £168 per metre, from Ottoline for The Fabric Collective. *"We don't think florals will ever go out of fashion and we're pretty happy about that too! Whether you prefer a soft country-style palette or want something with a big, bold and modern design, anything goes with this trend"*

**BACK TO NATURE**

IF IT'S A PLANT OR IT'S GREEN IT'S GOING TO BE A BIG TREND THIS SEASON. BRINGING A SENSE OF NATURE INSIDE HAS NEVER BEEN EASIER OR MORE IMPORTANT. WE'RE REALLY TAKEN WITH PALM, ONE OF THE LATEST COLOURS FROM THE KELLY WEARSTLER CALIFORNIA COLLECTION FOR FARROW AND BALL, £49.50 FOR 2.5L. JUST ADD SOME LEAFY GREEN FOLIAGE, BIG STEMS, FRONDY FERNS OR A LOAD OF HANGING PLANTS AND YOU'VE GOT A SERENE SETTING.
